Class 10th

St Theresa hr sec school

2012-2013

SUMMARY

I'm an experienced Front end developer with 3 years of expertise in building top-notch websites. I work closely with project teams to make sure we meet deadlines and deliver great results. My skills cover how websites are structured to making them run smoothly. I'm really good with HTML, CSS, JavaScript, jQuery, React Js, Bootstrap, Sitecore and I know my way around WordPress too. Plus, I'm comfortable using tools like Adobe photoshop, Corel draw and illustrator to design everything works seamlessly. I'm great at solving problems and communicating with others, and I always have a plan B in case something goes wrong. I'm also familiar with Python, php and have done automation and scraping. always looking for ways to improve.
